

# Positive Steps

*Learning, Growth, Friendship*

Does your child need extra support with following directions, emotional regulation, attention or socialization? Our Positive Steps Program helps children develop the skills they need to have an enjoyable and productive experience in the classroom or other highly stimulating settings. Positive Steps is designed for first and second grade students who need practice complying with rules, following adult directives, collaborating with others when playing and learning, making friends, seeking positive attention, managing transitions and day-to-day productive problem-solving. Our students learn to work with other children on group projects and activities and they develop social communication skills. Professional SNRG educators and behavior specialists create a structured daily schedule with concrete standards and goals, which build self-discipline, focus and independence. The best part of our program is how much fun it is! This program is offered on Monday and Wednesday from 2:45—4:45 pm year-round.

- **Social Skills**
- **Individualized Goals and Strategies**
- **Positive Behavior Plans**
- **Problem-solving Techniques**
- **Relationship Building**
